

# AdreCor with SAME

Contains non-glandular ingredients important for adrenal health and mood\*

Item Number	Available Sizes	Serving Size
2098	30 Capsules	1 Capsule

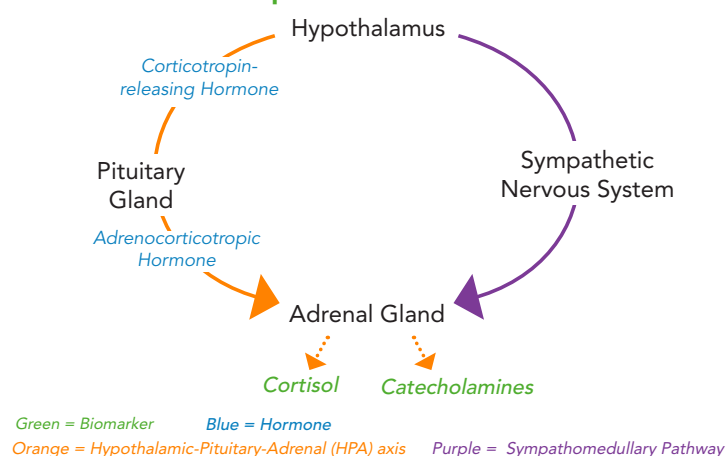

## Key Ingredients

<b>Adomix® (SAME)</b>	<ul style="list-style-type: none"> <li>Specialized form of S-adenosyl-L-methionine (SAME) that is stable at room temperature</li> <li>SAME is the universal methyl donor in the body involved in the methylation of neurotransmitters responsible for <b>mood regulation</b><sup>1,2*</sup></li> </ul>
<b>L-tyrosine</b>	<ul style="list-style-type: none"> <li><b>Precursor to catecholamines</b> including dopamine, norepinephrine, and epinephrine</li> </ul>
<b>Rhodiola rosea root extract (5% rosavins)</b>	<ul style="list-style-type: none"> <li>Considered an adaptogen because of its ability to <b>increase the body's resistance to stressors</b><sup>3*</sup></li> </ul>
<b>Green tea leaf extract (Camellia sinensis) (65% EGCG)</b>	<ul style="list-style-type: none"> <li>Epigallocatechin gallate (EGCG) is a polyphenol in green tea that provides <b>antioxidant protection</b> by its ability to scavenge free radicals and metal ions<sup>4*</sup></li> <li>EGCG has been shown to <b>increase resistance to fatigue</b> in vivo<sup>5*</sup></li> </ul>
<b>Vitamins B and C</b>	<ul style="list-style-type: none"> <li><b>Active forms</b> of pantothenic acid, niacin, B6, folate, B12, and C are important for the synthesis of adrenal hormones and neurotransmitters<sup>6-9*</sup></li> </ul>

## The Science

- In response to **stress**, the sympathetic nervous system (SNS) and hypothalamic-pituitary-adrenal (HPA) axis signal to the adrenals to release catecholamines (norepinephrine and epinephrine) and cortisol<sup>10</sup>
- Prolonged stress** is associated with dysregulation of the HPA axis, which can affect catecholamine and cortisol levels<sup>11</sup>
